

MANAGED ANTIVIRUS

Benefits of Managed Anti-Virus

TOTAL ENDPOINT SECURITY

What is worse than a virus? Time and money wasted recovering from one!

Every minute counts in today's business. Stop wasting your valuable and scarce IT resource time and energy on the selection, testing, planning, deployment, updating and reporting of your Anti-virus software.

Cumulus Consulting, LLC's Managed Anti-Virus service provides the skilled IT resources, domain expertise, centralized monitoring and management facilities, and proactive approach to ensuring the protection of your desktops and laptops against the ever-present threat of viruses, spam and malware attacks.

KEY FEATURES

- **Enterprise Class Solution** encompassing more than just anti-virus, this solution supports full endpoint security.
- **Most Advanced Proactive Technology** Comprised of intrusion prevention, proactive detection and behavioral analysis.
- **Ransomware Module** Allows laptops outside of the network to be fully protected.
- **Comprehensive Reporting Provides Transparency** A wide range of detailed reports are provided monthly to ensure you have visibility of what is happening and that you are being constantly protected.

Fully Managed Solution for the Same Price as Your Current Anti-Virus Software!

We include enterprise class endpoint software, monitored by us 24/7, and managed by a team of technical experts that will provide you with regular reports to ensure you can see that the devices in your business are protected at all times!

Reduces Operating Costs

A security incident can stop you from being 100% productive at work. This costs the company a lot of money in lost productivity and in opportunity costs. A virus can hit many machines and take weeks to eradicate. Removing this risk will save you money.

Protect Your Company's Critical Assets and Information

Proactive technologies ensure an additional protection layer against all types of unknown malware, targeted attacks and Internet threats.

A Flexible Security Solution

Our advanced security features offer the appropriate security for any size of company and network.

Comprehensive Reporting

No longer will you be unsure of how well you are protected. We will provide you with reports monthly that let you know that you are safe!

Total Peace of Mind

Buying an anti-virus solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PCs and laptops are always protected and that there is a group of dedicated experts taking care of it for you 24/7.

“Almost 50% of SMBs shut down external network access during serious external attacks; for many SMBs, this can cause crippling revenue loss.”

- Gartner

THREATS SMBs ARE FACING TODAY:

- Ransomware
- Network Viruses
- Spyware
- Data Theft
- Phishing Attacks
- Email Spam and Malware
- Trojans
- Unpatched Devices

95% of small and midsize businesses have an anti-virus installed, but 74% still experienced attacks last year!

Why our clients choose our Managed Anti-Virus Solution

Stand-alone Anti-Virus Software:

- Provides a point solution to specific issues
- Requires manual monitoring and maintenance to remain current and effective
- Relies on end-user decisions for operation
- Does not provide consistent version control across desktops
- Does not provide centralized management

Managed Anti-Virus:

- Provides proactive and comprehensive security, monitoring and management
- Centralizes the deployment and updating of software to ensure coverage and consistency
- Automates management processes to avoid errors and reduce costs
- Leverages Cumulus Consulting, LLC's expert IT staff skills
